

PARTNERSHIP FOR  
**RESILIENCE  
& PREPAREDNESS**

Harnessing the data  
revolution to manage  
climate risks

PARTNERSHIP FOR  
**RESILIENCE  
& PREPAREDNESS**

The Partnership for Resilience and Preparedness (PREP) connects planners with the data they need to assess climate risks and prepare for climate impacts in their communities. PREP brings priority data on weather, floods, droughts, and much more to the people who are developing climate resilience plans for their counties, cities and states. Explore data, dashboards and insights online or join the growing partnership.
